

## January/February 2015 Update

January 2015 was a busy and productive month for Clark County. Unemployment dropped to 4.1%, which was great news. The Board of County Commissioners completed and passed the 2015 budget, which reflected a growth in income, increased savings to meet our Budget Policy, recurrent savings for capital improvements, and reduction of debt to its lowest point in years. Additional highlights were the first meetings to begin updates and improvements on the Courthouse, A.B. Graham Building, and Juvenile Detention Center-all projects that are much needed and overdue. Installation of the new County financial system has also begun. Two new Sheriff's Deputies were sworn in. Juvenile Detention hosted another successful and enjoyable Hard Times Café function.
